

RESEARCH_{to} CARE

*Help us help you.
Let's define the future of
COVID testing together.*

**Are you interested in taking part
in policy-changing research
for the next few months?**

We are looking for providers – with more than three homes – in England that care for older adults, to take part in research that will shape future UK policy on COVID testing.

Staff in half of the homes that take part will do extra testing (twice weekly with LFDs). Staff in the other half will not be asked to do any extra testing.

Staff who do extra testing will get sick pay if they test positive for COVID. Providers will also get financial support for agency staff backfill.

Interested? More questions?

If you are a provider, arrange a call with us to discuss further, by emailing:

cctu.vivaldi@ucl.ac.uk

If you are not a provider, please pass this on.
