

# Ally Cares: Revolutionising Care with Evidence-Based Resident Monitoring

Our impact in 2024

## 10M

**HOURS OF SAFER CARE DELIVERED**

With active alerts and data-driven insights, Ally enables care staff to make timely and effective interventions, ensuring residents' safety is prioritised around the clock.

## 4,100

**PREVENTED FALLS**

By capturing critical changes in resident behaviours and physical status, Ally reduces fall incidents and minimises unnecessary hospital admissions.

## 2M+

**HOURS OF RESTFUL SLEEP**

Ally's non-intrusive monitoring allows residents to sleep without frequent physical checks, promoting better sleep quality essential to health and well-being.

## 2,000

**NEW BEDROOMS INSTALLED**

Ally's footprint across the UK expanded, a testament to its growing presence and proven value in the care sector.

## 330,000

**HOURS GIVEN BACK TO CARE STAFF**

Ally streamlines operations, allowing staff to spend less time on administrative tasks and more time connecting with and caring for residents.

# Ally Cares: Revolutionising Care with Evidence-Based Resident Monitoring

## About Ally

Ally Cares is a British company entirely focused on the UK social care sector. Our evidence-based Resident Monitoring System empowers care providers to deliver better care, whilst improving a resident's well-being and helping to ease pressure on the NHS. We're dedicated to providing care teams with actionable insights that enhance safety, quality, and compassion in care settings.

## Our impact

In 2024 alone, Ally's Resident Monitoring System has positively impacted 5,000+ residents throughout the UK. Our ongoing commitment improves care quality and supports the NHS in its efforts to enhance patient outcomes across residential settings.

## Supporting care homes profitability

Care homes leveraging Ally can better support residents with higher dependencies, extending their stay, increasing occupancy rates, and enhancing revenue through higher weekly fees. At the same time, Ally alleviates pressure on care teams helping to improve retention, and cut recruitment costs. Additionally, investing in Ally also helps benefit the NHS by lowering hospital admissions from your home.

## Research & evidence

Our effectiveness is well-documented in studies conducted by care homes, Integrated Care Boards (ICBs), and NHS Digital. Research comparing data from six months before and after Ally installation has shown that Ally helps to deliver a 63% reduction in unwitnessed falls, with 56% fewer hospital stays, whilst residents gain 50% more uninterrupted sleep, allowing carers up to 30% more time to deliver care to those in need. A win-win for everybody.
