

Extreme heat can have a significant impact on people's health and wellbeing. The UK Health Security Agency (UKHSA) is seeking feedback on a risk assessment tool they are developing, to support ASC providers to assess and respond to risks of people overheating during extremely hot weather. The draft tool is available through this survey, which can record your feedback and should only take 10 minutes to complete. The deadline for feedback is 14th August 2025.

To complete the survey please use this link:

- Roadmap unveiled to boost rights for half of all UK workers and provide certainty to employers

Government publishes the Employment Rights Bill Implementation Roadmap, setting out timelines for measures in the Bill coming into effect. Details [here](#).

- **ONS: The population in England is projected to increase by 6.4% between mid-2022 and mid-2032, latest analysis shows.**

Our interactive tool goes into further depth, exploring potential changes in each local authority over that 10-year period. You can see how births and deaths (natural change) & people moving in and out of areas is projected to change the population, & how the age profiles in each local authority could be affected. Read more [here](#).

- **Care England: New Report Warns of “Sleep Gap” in UK Care Homes: Action Needed to Protect Resident Wellbeing**

A new white paper published today by Care England in partnership with Ally Cares reveals a critical and often overlooked issue in care delivery: the chronic lack of sleep experienced by older adults in care homes across the UK. Details [here](#).

More information on Ally Cares is available at -
